

Quality Policy Statement

Form Cut Pty Ltd is a solutions based protective packaging company who design, manufacture and supply innovative protection for:

- Packaging of often very delicate items for storage, transport and deployment.
- In vehicle impact, insulation and blast protection products.
- Surface protection products for ship construction and repairs.
- Gaskets and sealing solutions.

These activities are controlled by established procedures that ensure customers' expectations are met on time, on budget and to their expected standard.

In order to achieve this, Form Cut has implemented a Quality Assurance System and Procedures that meet the ISO 9001:2015 Standard.

All staff are selected, trained and monitored to perform required tasks to a high standard.

Form Cut complies with all statutory requirements and is a member of the AiGroup and DTC.

Form Cut uses established and reputable suppliers for its material acquisition and invests in state of the art technologies as the need arises.

Form Cut is committed to continuous improvement through monitoring its activities, investing in staff development, new and improved processes, R & D and capital acquisition.

Form Cut is an active supplier to the ADF, Defence Primes, SMEs and other Manufacturing and Service industries.

Form Cut promotes its products and services at various expositions and conferences Nationally.
